The official combined fuel consumption figures for the All-New CLIO in mpg (l/100km) are: 49.6 (5.2) – 67.2 (3.6). The official CO<sub>2</sub> emissions are 118-94g/km. WLTP figures shown are for comparability purposes; only compare figures with vehicles tested to the same technical procedures. Actual real world driving results may vary depending on factors such as weather conditions, driving styles, vehicle load or any accessories fitted after registration. WLTP is a new test used for fuel consumption and CO<sub>2</sub> figures, however until April 2020 the CO<sub>2</sub> figures are based on the outgoing (NEDC) test cycle which will be used to calculate vehicle tax on first registration. Please visit [renault.co.uk/configure](https://renault.co.uk/configure) for WLTP figures for any selected options.

To qualify for the Motability Scheme you must be in receipt of the Higher Rate Mobility Component of the Disability Living Allowance, the Enhanced Rate of the Mobility Component of Personal Independence Payment, the War Pensioners' Mobility Supplement or the Armed Forces Independence Payment. Advance Payment (AP) offers are only valid for Motability applications between 1st July to 30th September 2020 and are correct at the time of going to print and subject to acceptance of Motability application. Motability customers agree to pay all or part of the Motability Allowance (DLA or WPMS) depending on their choice of vehicle, for the duration of their contract hire or hire purchase agreement. The Motability Contract Hire Scheme is administered by Motability Operations Limited (Registered Company No. 1373876), City Gate House, 22 Southwark Bridge Road, London SE1 9HB. Full written details, including terms and conditions, of the Motability Scheme are available on request from Motability. Please note 60,000 miles over 3 years are allowed on the Motability Contract Hire Scheme. Prices include metallic paint. Participating dealers only.

WLTP driving ranges: PLAY R110 245 miles, ICONIC R110 and ICONIC R135 239 miles and GT LINE R135 238 miles. Figures shown are for comparability purposes; only compare figures with vehicles tested to the same technical procedures. The electric range shown achieved using the new (WLTP) test procedure. Figures obtained after the battery was fully charged. Actual real-world driving results may vary depending on factors such as the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load. Renault estimates average real-world driving figures for this vehicle as 233 miles in summer and 150 miles in winter, depending on the factors above.
